This unit introduces more ways of talking about location, including the fundamental division of the village into indoors, outdoors, and beach, as well as pointer predicates. The first two conversations are about the locations of people and buildings.

Conversations 3 through 6 imagine a visit between friends, in which they discuss being at home versus not at home, coming from and going to, and road conditions.

15.2. Notes and exercises

The following location words represent the three key zones of the traditional village, namely inside a house (on a floor), outside (on dirt), and down at the beach (on sand). You should familiarize yourself with both their continuous and complete forms.

()	continuous ('at...')	complete ('go...')	
	BCQ mačiił, N hitiił	BC mačínλ, CT hinii?iλ, Q hiniiλ	indoors
	B hitaas, CTQ λaaʔaas	B hineeʔas, C λaaʔaa?iλ, TQ λaaʔinλ	outdoors
	BCT hitinqis, Q hitinqs	BCT hitinqsaλ, Q hitinqsλ	at the beach

The importance of these locations (indoors, outdoors, beach) is signalled throughout the language by the endings *-ił*, *-!as*, *-is*. For example, the location roots *hił*, *ʔust-*, as well as many other words, have different versions for each of these locations.

()	‘at’		‘on’		‘sitting’	
	N hiił	at	N ʔustʔił	on the floor	N ʔiq ^w ił	sitting indoors
	N hiʔiis	at	N ʔustʔas	on the ground	N ʔiʔas	sitting on the ground
	N hiis	at	N ʔustʔis	on the sand	N ʔiq ^w is	sitting on the sand

The word BCT *walyaqił*, Q *walyaqł* is just a more specific version of *walyuu*, meaning ‘at home (indoors)’, as opposed to BCT *walyaʔas*, Q *walyaʔs** ‘in one’s homeland’.

∞ Conversation. With a partner, take turns asking each other where people are. The possible answers are indoors, outdoors, at the beach, and at home.

Ex. (A) B *waasiha* Joe. CT *waasih* Joe. Q *waasah* Joe. ‘Where’s Joe?’ (B) B *hitinqisma*. CT *hitinqisʔiš*. Q *hitinqsiš*. ‘He’s at the beach.’

∞ Conversation. Add to the previous conversation other locations in the village. For places whose names are nouns, you will need to use *hił*.

Ex. (B) B *hiłmaa* makuł. CT *hiłʔiis* makuwił. Q *hiłʔiis* maakuukhaawsi. ‘He’s at the store.’
